Part No.	Description	
Overtime	The price listed for any equipment which has a diesel engine is based on usage of 8 Equipment Hours/day (24 Hour Rental Period), 40 Equipment Hours/week (7 Day Rental Period), or 160 Equipment Hours/month (28 Day Rental Period). Double shift usage charged at 1.5x the single shift rate and triple shift usage charged at 2x the single shift rate	
LA-DCCO	Dust Collector not returned completely empty, pulsed and clean	\$1,250
LA-DUCO	Dust Collector Ducting not returned completely dust free	\$100 ea
	Environmental Fee of 2.5% of Rental Charge	
	Diesel - Unit is supplied full, if tank is not full the customer will be charged \$6.95/gallon	\$6.95/gal
	UNITS MUST BE RETURNED EMPTY OF DUST or cleaning charge will be added to invoice. To do this the units must be pulsed for 10 hours with compressed air supply attached, engine on idle and fan disengaged. Once pulsing is complete the unit must be augured out and completely emptied of dust. To achieve this, the customer may have to go into the DC and vacuum/sweep out	

For rental projects involving ventilation of hazardous dust, a new set of filter cartridges MAY have been purchased. Sometimes this will be mandated by the EPA overseeing that job. These remain the property of the renter and must be removed prior to returning the Dust Collector to Blast-One. When Blast-One receives the Dust Collector back, we will conduct a test for hazardous waste test. If levels are high, the customer will be required to purchase the filters and pay for disposal
